One of the most prestigious and selective Romanian publishing house Eminescu in the Library of Philosophy published in autumn 2009 its entire sapiential works including all volumes of aphorisms published before and other volumes that have not seen the light to that date, in Romanian language. Romanian academician **Gheorghe Vladutescu**, University Professor, D.Phil., philosopher, one of the biggest romanian celebrity in the philosophy of culture and humanism believes about sapiential works of Sorin Cerin in Wisdom Collection:” *Sapiential literature has a history perhaps as old writing itself. Not only in the Middle Ancient, but in ancient Greece "wise men" were chosen as apoftegmatic (sententiar) constitute, easily memorable, to do, which is traditionally called the ancient Greeks, Paideia, education of the soul for one's training. Reviews and events in the press, Romanian Chronicle:- More than a "Wisdom collection"Altermedia Romania – Wisdom collection by Sorin Cerin.

One of the most representative romanian literary critic, **Ion Dodu Balan**, University Professor, D.Lit. considered that Sorin Cerin " Modern poet and prosiest, essays and philosophic study's author on daring and ambitious themes like immortality, ephemerid and eternity, on death, naught, life, faith, spleen. Sorin Cerin has lately approached similar fundamental themes, in the genre of aphorisms, in the volumes: Revelations December 21, 2012, and Immortality. Creations that, through the language of literary theory, are part of the sapient creation, containing aphorisms, proverbs, maxims etc. which „sont les echos de l'experience", that makes you wonder how such a young author can have such a vast and varied life experience, transfigured with talent in hundreds of copies on genre of wisdom.As to fairly

appreciate the sapient literature in this two volumes of Sorin Cerin, I find it necessary to specify, at all pedantically and tutoring, that the sapient creation aphorism is related if not perfectly synonymous, in certain cases to the proverb, maxim, thinking, words with hidden meaning, as they are ... in the Romanian Language and Literature. Standing in front of such a creation, we owe it to establish some hues, to give the genre her place in history. The so-called sapient genre knows a long tradition in the universal literature, since Homer up to Marc Aurelius, Roche foucauld, Baltasar Gracian, Schopenhauer and many others, while in Romanian literature since the chroniclers of the XVII and XVIII century, to Anton Pann, C. Negruzzi, Eminescu, Iorga, Ibrăileanu, L. Blaga, and G. Călinescu up to C.V. Tudor in the present times. The great critic and literary historical, Eugen Lovinescu, once expressed his opinion and underlined “the sapient aphoristic character”, as one of the characteristics that creates the originality of Romanian literature, finding its explanation in the nature of the Romanian people, as lovers of peerless proverbs. Even if he has lived a time abroad, Sorin Cerin has carried, as he tells us through his aphorisms, his home country in his heart, as the illustrious poet Octavian Goga said, „wherever we go we are home because in the end all roads meet inside us”. In Sorin Cerin’s aphorisms, we discover his own experience of a fragile soul and a lucid mind, but also the Weltanschauung of his people, expressed through a concentrated and dense form. Philosophical, social, psychological and moral observations. Sorin Cerin is a “moralist” with a contemporary thinking and sensibility. Some of his aphorisms, which are concentrated just like energy in an atom, are real poems in one single verse. Many of his gnomic formulations are the expression of an ever-searching mind, of a penetrating, equilibrated way of

SORIN CERIN
THE UNKNOWN ABSURD- PHILOSOPHICAL

thinking, based on the pertinent observation of the human being and of life, but also of rich bookish information. Thus, he dares to define immortality as “moment’s eternity” and admits to “destiny’s freedom to admit his own death facing eternity”, “God’s moment of eternity which mirrors for eternity in Knowledge, thus becoming transient, thus Destiny which is the mirror image of immortality”. “Immortality is desolated only for those who do not love”, “immortality is the being’s play of light with Destiny, so both of them understand the importance of love”. Nevertheless, the gnomic, sapient literature is difficult to achieve, but Sorin Cerin has the resources to accomplish for the highest exigency. He has proved it in his ability to correlate The Absolute with Truth, Hope, Faith, Sin, Falsehood, Illusion, Vanity, Destiny, The Absurd, Happiness, etc. A good example of logic correlation of such notions and attributes of The Being and Existence, is offered by the Spleen aphorisms from the Revelations December 21, 2012 volume. Rich and varied in expression and content, the definitions, valued judgments on one of the most characteristics state of the Romanian soul, The Spleen, a notion hard to translate, as it is different from the Portuguese “saudade”, the Spanish “soledad”, the German “Sehnsucht”, the French “melancolie” and even the English “spleen”. Naturally, there is room for improving regarding this aspect, but what has been achieved until now is very good. Here are some examples which can be presumed to be „pars pro toto” for both of his books: „Through spleen we will always be slapped by the waves of Destiny which desire to separate immortality from the eternity of our tear”, „The spleen, is the one that throws aside an entire eternity for your eyes to be borne one day”, „The spleen is love’s freedom”, „The spleen is the fire that burns life as to prepare it for death”. Florin Țene: «Sorin Cerin’s reflection are thinkings, aphorisms or apothegms, ordered by theme and alphabetically, having philosophical essence, on which the writer leans on like on a balcony placed above the world to see the immediate, through the field glass turned to himself, and with the help of wisdom to discover the vocation of

distance. This book's author's meditation embraces reflections that open the way towards the philosophy's deeps, expressed through a précis and beautiful style, which is unseparated from perfection and the power of interpreting the thought that he expresses. As a wise man once said, Philosophy exists where an object is neither a thing, nor an event, but an idea. ».The paradox condensing of Sorin Cerin's aphorisms in a "rainbow" of thirty six "theme colors" – as I said above – tried to give the "sacred date" of 21 December 2012: the absolute («Human's absolute is only his God»), the absurd («The absurd of the Creation is the World borne to die »), the truth («The Truth is the melted snow of Knowledge, from which the illusion of light will rise»), the recollection («The recollection is the tear of Destiny »), knowledge («Knowledge is limited to not have limits »), the word («The word is the fundament of the pace made by God with Himself, realizing it is the lack of nought: the spleen of nought»), destiny («Destiny is the trace left by God's thought in our soul's world »), vanity («Vanity revives only at the maternity of the dream of life »), Spleen («Within the spleen sits the entire essence of the world»), Supreme Divinity / God («God cannot be missing from the soul of the one who loves, as Love is God Itself »), existence («Existence feeds on death to give birth to life »), happiness («Happiness is the Fata Morgana of this world »), the being («The being and the non-being are the two ways known of God, from an infinite number of ways »), philosophy («Philosophy is the perfection of the beauty of the human spirit towards existence»), beauty («Beauty is the open gate towards the heaven's graces»), thought («The thought has given birth to the world »), giftedness («Giftedness is the flower which grows only when sprinkled with the water of perfection») / genius («The genius understands that the world's only beauty is
